in the world of programming

ABOUT ME

I am Mammadov Shahriyar, I was born on 20.05.2002 in Baku. Due to my childhood interest in programming, I started to study Bachelor of Computer Science in 2020, during which I participated in the #codeforfuture project and graduated with high success (97/100), I am developing myself in this field. During my participation in the project, I learned teamwork habits and a number of skills. Thanks for reading.
